ChromENVE: Chromatin ENVironment and Enhancer Expression

Cosmin Marmiroli
2023-05-12

Abstract
Citation
Introduction
Initialization of data
Distribution of chromatin state in the genome
Annotation of enhancer
Annotated enhancer binding to enhancer position
Number of genes associate at the enhancer
Associated gene expression to enhancer
Profile of enhancer annotation
Distance gene-enhancer according to their expression
Distance gene-enhancer
Enhancer expression
Enhancer annotation comparison
Number of genes associate at the enhancer
Distance gene-enhancer in function their expression
Distance gene-enhancer
Enhancer expression
Gene environment
Coverage of chromatin state in environment binding to TSS regions
Predominant state in environment binding to TSS regions
Session Information
References
